

Viewing MEAP scores for last year's students

Illuminate Education provides a way for teachers to view the current MEAP performance of their previous year's students. This document outlines the steps to do this.

In this example, you are logged onto Illuminate as a second grade teacher and wish to view the 3rd grade MEAP results for your students from last year. (This document was written in March 2013)

Log onto Illuminate

The screenshot shows the Illuminate dashboard interface. At the top, there is a navigation bar with "My Dashboard" and "Add Widgets". Below this, there are two main widgets. The "Class Roster" widget on the left shows a dropdown menu for "1(A-E) (Homeroom 2) (9061)" and a search bar. Below the search bar is a table with columns for ID, Lastname, Firstname, and Grade. The "State Assessment - Performance Summary" widget on the right has filters for Year (2013-2014), Test (MEAP - M), and Type (Grade 3 Math). Below these filters, it displays "(no data)". At the bottom right, there is a "Favorites" widget with buttons for "District Favorites" and "My Favorites", and a table with columns for Type, Title, and Favorites.

ID	Lastname	Firstname	Grade
8757671595	Bartholomew	Salman	2
6182274278	Cevilla	That	2
2872489947	Delrio	Celena	2
3345567635	Ernst	Lopez	2
9387979081	Felder	Kevin Duc	2
8572762794	Ghobrial	Ward	2
3226607808	Guereca	Naethan	2
8721097212	Hurskainen	Edwin	2

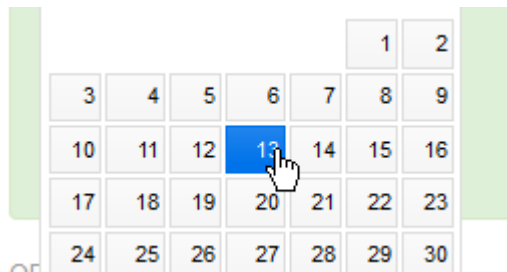

This is the dashboard for teacher. The teacher is logged on with the enrollment/rostering date set for Today. Notice that the teacher's roster shows the current 2nd grade class, and that the State Assessment - Performance Summary widget is currently blank (because the enrollment date is set to Today, the teacher is rostered to current 2nd grade students, and has no students with results.)

Adjust the Enrollment/Rostering date to the previous school year

The screenshot shows a user interface with a 'Change Student Set' dialog box. On the left, there is a sidebar with 'Login Information' (Name: Anhduy Espejo, Username: espejoa, Role: Teacher, Site: Donkey ELEMENTARY SCHOOLS 2, Session: 2013-2014, Term: Y), 'Edit Account' (Re-login as Trainer, Sign Out), and 'Help' (Lessons & Videos, help@illuminateed.com, 949-242-0343, 517-224-4499). The main area of the dialog is titled 'Change Student Set' and contains an 'Enrollment/Rostering Date' field with the value '03/07/2014'. Below this is a calendar for March 2013. A dropdown menu is open, showing years from 2003 to 2022, with '2013' selected. A red arrow labeled '1' points to the 'Control Panel' button in the top right of the main interface. Another red arrow labeled '2' points to the date '26' in the calendar grid.

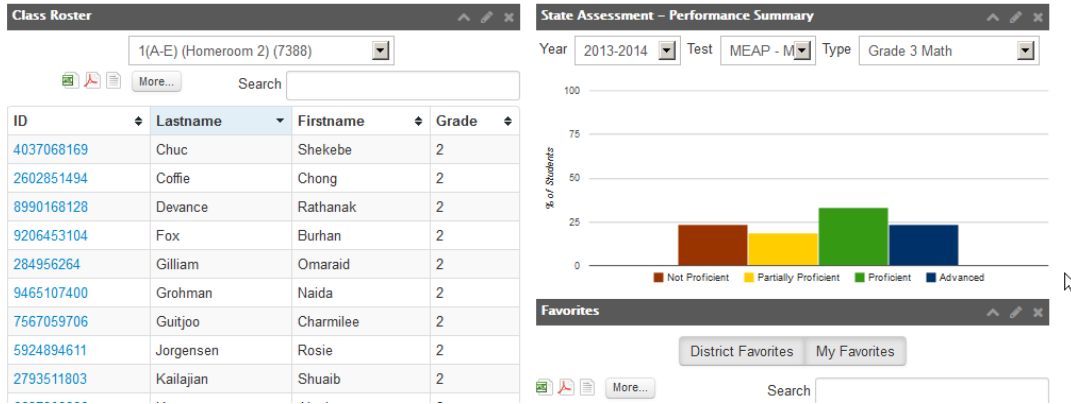

To view the results for your previous students, you need to adjust the Enrollment/Rostering date in the control panel. First, click on the Control Panel in the upper right corner for the screen (1). Next, change the date to a school day in the previous school year (2).

Select a specific date

After adjusting the month and year, don't forget to click on a specific date as well. After you select a specific date, hit the "Save Changes" button (not shown).

The dashboard now shows students from the previous year

Note that the dashboard display has now changed, and the widgets are showing the results for the students that were enrolled to the teacher on the date selected in the control panel. Note that the State Assessment - Performance Summary widget is now populated, showing the results for the 2013-14 3rd grade MEAP. The students that are reported were rostered to this teacher on the date selected in the control panel.
